PLANNING AND INSPECTION DEPARTMENT – PLANNING

Developer / Engineer shall address the following comments:

1: Submit to the Planning & Inspections Department – Planning Division the following prior to recording of the subdivision:

- a: Current certificate tax certificate(s)
- b: Current proof of ownership.
- c: Release of access document, if applicable.
- d: Set of restrictive covenants, if applicable.

2: Every subdivision shall provide for postal delivery service. The subdivider shall coordinate the installation and construction with the United States Postal Service in determining the type of delivery service for the proposed subdivision. In all cases, the type and location of delivery service shall be subject to the approval of the United States Postal Service.

~~3: Submit articles of incorporation for the owner to ensure that the person signing the plat is authorized to do so.~~

~~4: Dedication statement needs to reference the easements being dedicated.~~

PLANNING AND INSPECTION DEPARTMENT – LAND DEVELOPMENT

We have reviewed subject plats and recommend **Approval**.

The Developer/Engineer shall address the following comments.

- 1. Show existing and proposed drainage flow patterns on the preliminary plat.
- 2. Any proposed ponding area shown, shall have enough capacity to hold the developed runoff for a designed 100-yr. storm event.
- 3. Label the slope and the direction on the street cross-sections provided.
- 4. Header curbs are typical for the area and are required for on-site ponding. Update typical street cross sections with headers curbs or alternate curb with leave-out opening design details (2-44).
- 5. Make fonts consistent, legible, and utilize the correct scales in drawing.
- 6. Include half of abutting streets in watershed calculations for each lot.

EL PASO WATER

We have reviewed the above referenced subdivision and provide the following comments:

Service to the subject Property is anticipated by extensions of lesser diameter mains within easements. Easements that will accommodate these extensions need to be labeled PSB Easements. Additional easements may be required depending on the improvement layout.

The Final Engineering Report needs to be revised to reflect public water and sanitary sewer improvements.

The existing water and sanitary sewer mains located along Edgemere Boulevard, as well as along Vista Del Este Street are not available for direct service connections.

The subject property is located within the City of El Paso Eastside Impact Fee Service Area. Impact fees will be assessed at the time of plat and collected after the El Paso Water receives an application for water and sanitary sewer services.

EPWater-PSB supports and encourages voluntary annexation to the City of El Paso.

Water

Along Edgemere Boulevard fronting the subject Property there is an existing thirty – six (36) inch diameter water transmission main. No direct service connections are allowed to this main as per the El Paso Water - Public Service Board Rules & Regulations.

Along Edgemere Boulevard fronting the subject Property there is an existing sixteen (16) inch diameter water transmission main. No direct service connections are allowed to this main as per the El Paso Water - Public Service Board Rules & Regulations. This 16-inch diameter main is available for main extensions.

From the intersection of Vista Del Este Street and Edgemere Boulevard, along Vista Del Este Street towards the north, there is an existing sixteen (16) inch diameter water transmission main. No direct service connections are allowed to this main as per the El Paso Water - Public Service Board Rules & Regulations. This 16-inch diameter main is available for main extensions.

Sanitary Sewer

Along Edgemere Boulevard fronting the subject Property there is an existing twenty – four (24) inch diameter sanitary sewer main. No direct service connections are allowed to this main as per the El Paso Water - Public Service Board Rules & Regulations. This 24-inch diameter main is available for main extensions.

From the intersection of Vista Del Este Street and Edgemere Boulevard, along Vista Del Este Street towards the north, there is an existing eighteen (18) inch diameter sanitary sewer main that in turn, discharges unto the above - described 24-inch diameter sanitary sewer main. No direct service connections are allowed to this 18-inch diameter main as per the El Paso Water - Public Service Board Rules & Regulations. This 18-inch diameter main dead-ends at the immediate vicinity of the north right-of-way line of Edgemere Boulevard. The development of the subject Property will require the extension of this 18-inch diameter main along Vista Del Este Street from Edgemere Boulevard to the northern boundary line of the subject Property. All costs associated with main extensions are the responsibility of the Owner/Developer.

General

EPWater requires a new service application to initialize design of the water and sanitary sewer main extensions to serve the subject property. New service applications are available at 1154 Hawkins, 3rd Floor. The following items are required at the time of application: (1) hard copy of subdivision plat; (2) finalized set of street improvement plans, including storm sewer; (3) digital copy of subdivision plat; (4) benchmark check; and (5) construction schedule. Service will be provided in accordance with the current EPWater – PSB Rules and Regulations. The owner is responsible for the costs of any necessary on-site and off-site extensions, relocations or adjustments of water and sanitary sewer lines and appurtenances.

CAPITAL IMPROVEMENTS DEPARTMENT – PARKS

We have re-reviewed Bradford in the 60's a minor plat map and on behalf of CID Parks & Planning Division, we offer Developer / Engineer the following "revised" comments:

Please note that this subdivision is located within the City of El Paso east Extra Territorial Jurisdiction (ETJ) area and within the South Montana B area of potential annexation by the City, thus subject to the calculation for "Parkland / Fees" as it is identified on the official map as described per

ordinance Title 19 – Subdivision & Development Plats, Chapter 19.20 - Parks & Open Space as noted below:

Section 19.20.020 - Dedication Required

- A. Dedication Required. All subdivisions located within the corporate limits of the City of El Paso and within those areas designated in the City's extra territorial jurisdiction (ETJ), as identified on an official map kept in the Development Services Department.

Also, please note that subdivisions within the ETJ area do not have a zoning district designation however; applicant has submitted copy of preliminary covenants restricting the use to Non-residential uses therefore, "Park fees" will be assessed as follows:

If applicant provides copy of final signed / recorded covenants restricting all residential uses and if gross density waiver is granted by the City Manager or the Planning Department designee, then Applicant shall be required to pay "Park fees" in the amount of \$9,050.00 based on the following calculations:

Acreage 9.05 (rounded to two decimals) @ \$1,000.00 per acre = \$9,050.00

Please allocate generated funds under Park Zone E-12
Nearest Park: Miners Park

If density/acreage is increased /decreased or the property zoning /use changes, then "Park fees" will be re-assessed based on applicable conditions.

COUNTY OF EL PASO

The county is in support of the waiver request on the roadway improvements for Vista Del Este but not the sidewalks.
